

Databricks Terms of Use - Google Models

In this page, learn about terms applicable to you and your Authorized Users' use of the Google Models (proprietary models developed by Google and made available as a first party offering on Databricks). You are responsible for complying with these terms when using Google Models offered through Databricks.

Customer and Customer's Authorized Users may not, and may not allow any third party to:

1. Access or use Google Models for activities where the use or failure of the models would reasonably be expected to lead to death, personal injury, or environmental or property damage (such as the creation or operation of nuclear facilities, air traffic control, life support systems, or weaponry);
2. Engage in cryptocurrency mining in connection with the Google Models;
3. Operate or enable any telecommunications service or in connection with any that allows Authorized Users to place calls or to receive calls from any public switched telephone network in connection with the Google Models;
4. Use Google Models in connection with materials or activities that are subject to the International Traffic in Arms Regulations (ITAR) maintained by the United States Department of State;
5. use a Google Model or any data or content generated by Google Model in response to inputs or other data provided by an Authorized User ("Output"), to develop a similar or competing product or service to the Google Models;
6. use Outputs to: (i) substitute, replace, or circumvent the use of a Google Model, directly or indirectly, or (ii) create or improve models similar to a Google Model;
7. reverse engineer or extract any components of the Google Models (such as using prompts to discover training data);
8. use a Google Model as part of a website, application, or other online service that is directed towards or is likely to be accessed by individuals under the age of 18; or
9. use the Google Models for clinical purposes (for clarity, non-clinical research, scheduling, or other administrative tasks is not restricted), as a substitute for professional medical advice, or in any manner that is overseen by or requires clearance or approval from any applicable regulatory authority.

Benchmarking. Customer and Customer's Authorized Users may conduct benchmark tests of the Google Models. Customers and Customer's Authorized Users may not publicly disclose the results of such benchmark tests. Notwithstanding the foregoing, Customer and Customer's Authorized Users may not conduct benchmark tests of Google Models on behalf of a hyperscale public cloud provider.

Disclaimer. Google Models use emerging technology, may provide inaccurate or offensive Output, and are not designed for or intended to meet Customer's regulatory, legal, or other obligations.

Customer acknowledges that a Google Model may, in some scenarios, produce the same or similar Output for multiple customers.

Suspected Violations. Databricks may immediately suspend or terminate Customer and Customer's Authorized Users' use of a Google Model based on any suspected use of the Google Models that is not in accordance with the Documentation.

Consumption Data Disclosure. To the extent Customer and Customer's Authorized Users elect to make use of Google Models, Databricks may disclose certain consumption information to Google relating to Customer's use of the Google Models, including identifying Customer in connection with such information.
